STATINTL

1. [redacted] has not been paid yet. [redacted] STATINTL was told he should receive payment in 10 days and the 10 days are now up. He will follow up again today.

2. Two additional 2-axis units would be same price as he has quoted to you if they were identical. If all units were made at the same time there would be some saving he could make in set up time which would result in a lower price to you. STATINTL
